

*...we keep it moving*

Meta Bearings has been established as a global trading company for many years and is one of the leading distribution partners when it comes to industrial supplies, especially bearings and components.

Thanks to the efficiency of our warehousing we always have a wide range of premium branded products from leading manufacturers in stock in order to ensure a fast and competent delivery.

For us, quality and technical expertise are a matter of course. Due to latest technologies and a wide network of suppliers we can respond even more rapidly to your requirements.
